

Guidelines for the Final Pitch

Code2Create

General Guidelines

- Pitch should be limited to a maximum of 7–10 minutes.
- Presentation Deck restricted to no more than 10 slides.
- Showcase the product in action rather than focusing on concept explanation.

Guidelines for the Final Pitch

Problem statement & Uniqueness :

- State the problem you are solving and show why it matters.
- Explain what is unique about your solution.
- Highlight potential real world impact.

Guidelines for the Final Pitch

Implementation & Functionality :

- What you built during the hackathon.
- Demo of the working product.
- List the core features implemented.
- Show your UI designs or screens and explain its ease of use.

Guidelines for the Final Pitch

Technical approach & Innovation :

- Mention the frameworks, APIs and architectures used and explain what makes it innovative.
- Mention why you chose these technologies.
- Highlight future technical improvements and scalability.

Guidelines for the Final Pitch

Business Strategy :

- Describe who your users are.
- Explain how your solution creates value for the users.
- Outline market size or adoption potential briefly.
